## READS FLAG POEM TO NEW CITIZENS

Judge Funk Explains Meaning of Stars and Stripes to Men Getting Papers.

Sixteen men were admitted to citizenship before Judge Walter A. Funk in circuit court Tuesday afternoon and inspired by a patriotic talk by the judge pledged their allegiance to the stars and stripes. The meaning of the significance of the flag was explained to the men by the judge who pointed out each feature on a silk banner. A poem, "Your Flag and My Flag" was read by the judge to the new citizens. C. H. Burdick of Chicago, naturalization examiner, conducted the examination.

Thirty-three applications were acted upon of which two were dismissed and 15 applications continued until the September term of court. Among the 15 continued were those of six men who were born in Germany. Their cases were not heard.

**Await Supreme Court.**  
In refusing to hear the cases Judge Funk explained to the men that a case was now before the supreme court of the United States testing whether a man of German birth, whose application had been on file before the declaration of war would be admitted to citizenship. The law says that a citizen of a hostile country cannot be accepted as an American citizen while such animosity exists. Two courts have ruled that the man can be admitted but the case has been appealed to the supreme court.

Judge Funk told the men that it would be better to continue their cases, as other courts throughout the country were doing, until the next term of court than to throw them out of court entirely as the whole process of securing papers would have to be gone over again.

Of the 16 men who were admitted to citizenship, five were Russians, three were Belgians, two were English, two were Hungarians, one was a Greek, one was an Austrian, one was a Swede and one was a Norwegian.

**Those Admitted.**  
Those who were admitted were: David D. Volter, Joseph Kekko, Mathias Ivanishitz, William McMahon, William Moffat, Kazimierz Straczynski, Samuel Levy, Charles G. Mowalis, Herman C. Nelson, Camille Peters, Nachin Medwedowski, name changed to Meadow; Joseph Rosenberger, John E. Johnson, Felix Garaczewski, name changed to Gordon, and Joseph Kesknetic.

The petitions of Antoni Moskwin-ski was dismissed upon his own petition, while that of Julius Liomat was dismissed on account of an incompetent witness.

The cases continued on account of the petitioners being absent were those of Joseph Teufelhart, Ladislau Szabo, Henry Hays, Frank Xiemeth, Martin Galuska and Adam Rozanski. Absence of one of the witnesses caused the postponement of the cases of Isadore Slavin and Vandel Torok.

Those whose cases were continued by reason of their being of German descent were Jacob Hoffman, John Plessel, Henry Meyer, John Kuespert, August Adolf Maahs and Joseph Lerner.

## BOARD OF WORKS LETS PIPE SEWER CONTRACTS

Contracts for the pipe sewers on Fox and Donald sts., from Miami st. to Dale st., were let by the board of public works last night to the firm of Hoban and Roach. The contract price on the Fox st. sewer was \$1,031.50, while that for the Donald st. sewer was \$1,028.45.

Residents of the South Lawn addition succeeded in having the board approve the resolutions for sewers on Donald and Fox sts., from Miami to Leer st., and on Leer st. from Calvert st. to Ewing av.

No remonstrances were filed for the vacation of Brownson st., from Leer to the east line of the south-east addition nor for the vacation of Scott st., from a point 20 feet north of the south line of lot seven in Red's first addition to the north line of Red's third addition.

The resolution for the pavement on the William st. alley from Colver to LaSalle av., was approved over the remonstrance of one resident. The assessment roll on the Forest st. improvement was also O. K'd by the board.

H. N. Barnes received the contract for the concrete pavement on the alley west of Lafayette st. from Monroes to South st. The bid was \$1,131.40. Barnes also got the contract for the repair work in various parts of the city.

The board considered the petition for the improvement on Brookfield av., from Lincoln way W. to Vassar av., and ordered a resolution drawn by the city engineer on the improvement.

## RED MEN MEET.

Two applications were received and approved at the regular session of the Red Men lodge held last night at the club rooms, 263 S. Michigan st. Committees were appointed to meet with the G. A. R. and arrange for the Memorial day program; to arrange for the annual picnic of the Red Men to be held the second Sunday in July; to arrange for the annual Red Men Memorial celebration on the second Sunday in June.

## WHOLESALE TO PROBE LOCAL HOUSING QUESTION

Following a luncheon at the Lexington Tea rooms at 6:15 o'clock Tuesday night, the Wholesalers' bureau at a business meeting in the Chamber of Commerce appointed a special committee to investigate the housing problem.

The bureau also appointed a committee consisting of E. W. Nelson, Forest Hillier and F. W. Long to arrange a membership campaign. About 50 percent of the wholesalers in South Bend are at present affiliated with the bureau. The committee will seek to enroll every wholesaler in the city in the organization.

## POSTPONE REPORT ON MILK MEASURE

Committee of Whole Lays Aside Proposed Ordinance for Time Being.

The committee of the whole of the common council in the regular meeting Tuesday night voted to postpone the rendering of a report on the milk ordinance presented at the request of Dr. Charles S. Rosenbury, secretary of the board of public health, until the next meeting of the committee. A short consideration of the measure was accorded before it was laid aside.

The matter of permitting the operation of jitney busses without the licenses provided by city ordinance, was finally left to Mayor Keller. He said that he had granted the privilege of operating jitneys on Lincoln way E. and on to Mishawaka, W. B. Wednesday only on account of the baseball game at Springbrook park. After the council had laid the matter at his disposal he said that he probably would not object if the busses would be operated during the entire season.

**Pass Buck to Mayor.**  
Representatives of the car union and of the Central Labor union addressed the council and requested that busses be permitted on all of the city streets now occupied by street car lines. The council was advised by City Atty. Seebert that it could not suspend the operation of its ordinances requiring licenses unless a special meeting of the council was called by the mayor and a vote taken on a regularly submitted repealing ordinance. His advice was disregarded and the council adjourned at once, passing the buck along to the mayor.

Hasty approval of the council was given to the contract entered into between the board of public works and the council providing for the lighting of the streets of River Park by a system of gas lights. The favorable report will without a doubt send the approval of the council through the next meeting.

Chairman Buechner had the milk statute, that will be enacted in Indiana on Jan. 1, 1918, read for the information of the committee. This statute places restrictions much more strict than is proposed by the ordinance of the local health department. The state law will require that all milk shall have less than 50,000 bacteria per cubic centimeter, and the ordinance submitted to the council places the maximum at 100,000. The council was fearful that it would work a hardship on the milk dealers to place these restrictions on the dealers six months before the state law would go into effect.

## N. D. STUDENTS LEAVE FOR HOMES

Seniors and Juniors Prepare for Officers' Training Camp.

Many of the Notre Dame students who passed the examination for entrance into various reserve officers' camps, are leaving for their homes to spend a few days before leaving for camp. Nearly all of the students will enter the camp at Indianapolis or Fort Sheridan in Illinois.

Seniors who are leaving the class room for service will receive their degrees in June without being required to make up the work they will miss in the intervening time. Full credit for the unfinished work of this scholastic year will be given to all students who are voluntarily entering any military service, and on their return to Notre Dame they will receive special assistance, from the professors, all of whom have volunteered their services free of charge.

Nearly all of the students who will enter the officers' reserve training camps are members of the junior or senior class at the university. Besides those who passed the examination in South Bend are: Cullen, Lenihan, Reilly and Vurpillat, who passed the examination at Culver. The following is the full list examined by Dr. Frank Powers and passed by Capt. Wescott during the past week: Harry F. Kelly, J. M. Rentseher, Daniel Carr Curtis, George Franklin Frantz, T. V. ## MAN DROPS DEAD ON HIS BIRTHDAY; WIFE LOCATED

The police late Tuesday night located the wife of Frank Regney who dropped dead of apoplexy at the Birdsell plant Tuesday noon. A son, George Regney, who is said to live with his mother, Mrs. Cora Regney, in Elkhart was also located. The only other known relative of the deceased is a sister, Mrs. Mary Hohn, who lives in Texas.

Mrs. Regney was notified of her husband's death Tuesday night and it was expected that she would reach South Bend today to complete the funeral arrangements.

Regney dropped dead Tuesday noon just as he was about to take his lunch. His body was taken to the Verriek morgue, where it was thought for a few hours that he had been boarding at 520 E. Washington av. On further investigation, however, it was learned that he had been rooming at 120 N. Emrick st. Tuesday was the man's 58th birthday.

**FALLS FROM MOTORCYCLE.**  
Phillip Schiener, 237 E. Seventh st., Mishawaka, fell from his motorcycle on the road near Woodland yesterday afternoon and suffered slight cuts about the head and body. Officers Kemery and Pinter took him to his home in the new police ambulance.

Dr. P. K. Mullany moved to Title Bldg., 124 N. Main st. Home 1807; Bell 4717.

## PUTS HEALTH FIRST IN GETTING AN EDUCATION

"Health not character comes first in point of time in education," declared Dr. H. Dean in a lecture before the teachers of the city schools Tuesday afternoon at the high school. Dr. Dean, who is connected with the educational department of Columbia university and who was formerly connected with Indiana university, spoke on "The Man and the Job," emphasizing the importance of paying more attention to vocational training in the school course.

The junior high school idea was highly endorsed by Dr. Dean in his talk. He argued that more attention should be given to making education practical and interesting during the first years a child ordinarily spends in high school than can be given in the high school as at present arranged. "Practical and useful trades and subjects rather than Latin, algebra and geometry, should be taught those students of the junior high school who do not intend to enter college," the speaker said. "It should be remembered that the object of education is principally to fit the man for his job, and that this should be the object of the education in school as well as out," concluded Dr. Dean.

## GIVES POINTERS ON FOOD SUBSTITUTION

"Uses of Food-Substitutes, and Balanced Meals" was the topic discussed by Miss Elsie Hinckley, domestic science instructor, at the first of the classes held under the direction of the Progress club women, Tuesday afternoon at the Muesel school.

The digestive qualities of certain foods, the heat and energy making qualities of others, were the main points taken up in discussing the well balanced meal. Miss Hinckley gave suggestions for preparing foods containing the elements necessary to the well balanced meal. Leaflets showing the common foods grouped according to chief food constituents were distributed to the members of the class.

At the class next Tuesday, Miss Hinckley will lecture on "Winter Storage of Foods—Methods of Canning and Drying."

## Notre Dame News

"Sorry, but we are all off to war." This was the response given by the members of the Notre Dame Glee club when approached after their concert at the Murat theater in Indianapolis by a member of the Keith western circuit who offered a 12-week contract to the members. Salaries of \$25 for the chorus and \$50 for the specialty men was offered by the manager. Some of the best specialty men and also members of the university orchestra have left for their homes before entering the officers' reserve camps. Frank Carey, director of the Carroll band, left for his home in Rochester, N. Y., at the conclusion of the concert.

Members of the Notre Dame Press club held a meeting Tuesday noon and the meeting was in the nature of a farewell to two members of the club who left for their homes before entering Fort Benjamin Harrison. The president of the club, Edward McOsker of Elgin, Ill., and William Kennedy of Chicago are the two press clubbers who will enter the Indiana camp.

The Notre Dame Journalism department has received an appropriation to buy a collection of old newspaper. The purchasing will be in charge of James M. Lee, former editor of Judge, and at present the dean of the department of Journalism in New York university. The collection will illustrate the Journalism of every epoch. Several of the publications are over 100 years old. The collection will be housed in the Journalism library on the first floor of the new library building.

Twenty-four athletes of former days will be especially honored at the golden jubilee exercises in June when special emblematic shields will be given to the men who upheld the gold and blue before the days of the coveted monograms were given. The shields have been especially designed by the athletic directors.

## ORDERED TO REPORT.

Dr. Perry C. Traver of South Bend received Tuesday his orders from the government requesting him to leave on Thursday for San Francisco. Dr. Traver will be a member of the medical corps which leaves soon for the Hawaiian islands to replace regulars who have been on duty there.

## The New Way To Remove Corns. Japanese Method—Don't Hurt a Bit

Just a Touch Stops Soreness, Then the Corn or Callous Shrivels and Lifts Off. Try It. Your Feet Will Feel Cool and Fine.

Thanks to a new discovery made from a Japanese Product your foot troubles can be quickly ended. Ice-Mint as this new preparation is called is said to shrivel up hard corns, soft corns or corns between the toes so that they can be lifted off easily with the fingers. It's Wonderful. Think of it: Just a little touch of that delightful, cooling, soothing, Ice-Mint and real foot joy is yours. No matter how old or tough your pet corn it is so well shielded right up and your corns either when applying it or afterwards, and it doesn't even irritate the skin. If your feet are inclined to swell or puff, or if you have cracked or bleeding toes, it will draw the inflammation out and quickly heal the sore and tender places. It is the real Japanese secret for fine healthy feet and is greatly appreciated by women who wear high heel shoes and men who have to stand on their feet all day. No more tired, aching or burning feet—No more foot trouble. Ice-Mint will make your feet feel so cool and fine that you will just sigh with relief. It is now selling like "Wild Fire" here. Just ask in any drug store for a little Ice-Mint and give your poor suffering, tired feet the treat of their lives. There is nothing better, nor nothing just as good. Adv.
